

Casting for Universe

Turbo Cast (India) Pvt. Ltd.

**Universal Solution in Investment Casting
for Aerospace, Defense & Medical Applications**

About Us

Turbo Cast (India) Pvt. Ltd. is India's First Indigenous Investment Casting foundry, started in 2015, especially for Aerospace, Defense, Medical & Aluminum Investment Castings Accredited for AS9100C certification. We have also started documents for NADCAP approval & planned to get Certification for NDT in 2017 and Heat treatment in 2018. We have modern & sophisticated equipment and machineries including in-house CNC Machining facility & Ceramic Core Technology.

We make Quality Investment Castings since 1995 for different commercial industries from our present two foundries (Inova & Inovative). We produce every month @ 90 to 100 MT Investment Castings for our indigenous and overseas buyers.

Product

Lost Wax Investment Castings for Aerospace, Defense & Medical Application with High Precision Machined Components.

Manufacturing Capabilities

Single Piece Size : 25 X 10 X 5 mm (Min.) to 600 X 300 X 200 mm (Max)
Single Piece Wt. : 45 Grams to 45 Kg. for Steel & 15 Grams to 15 Kg. for Al.

Material of Product

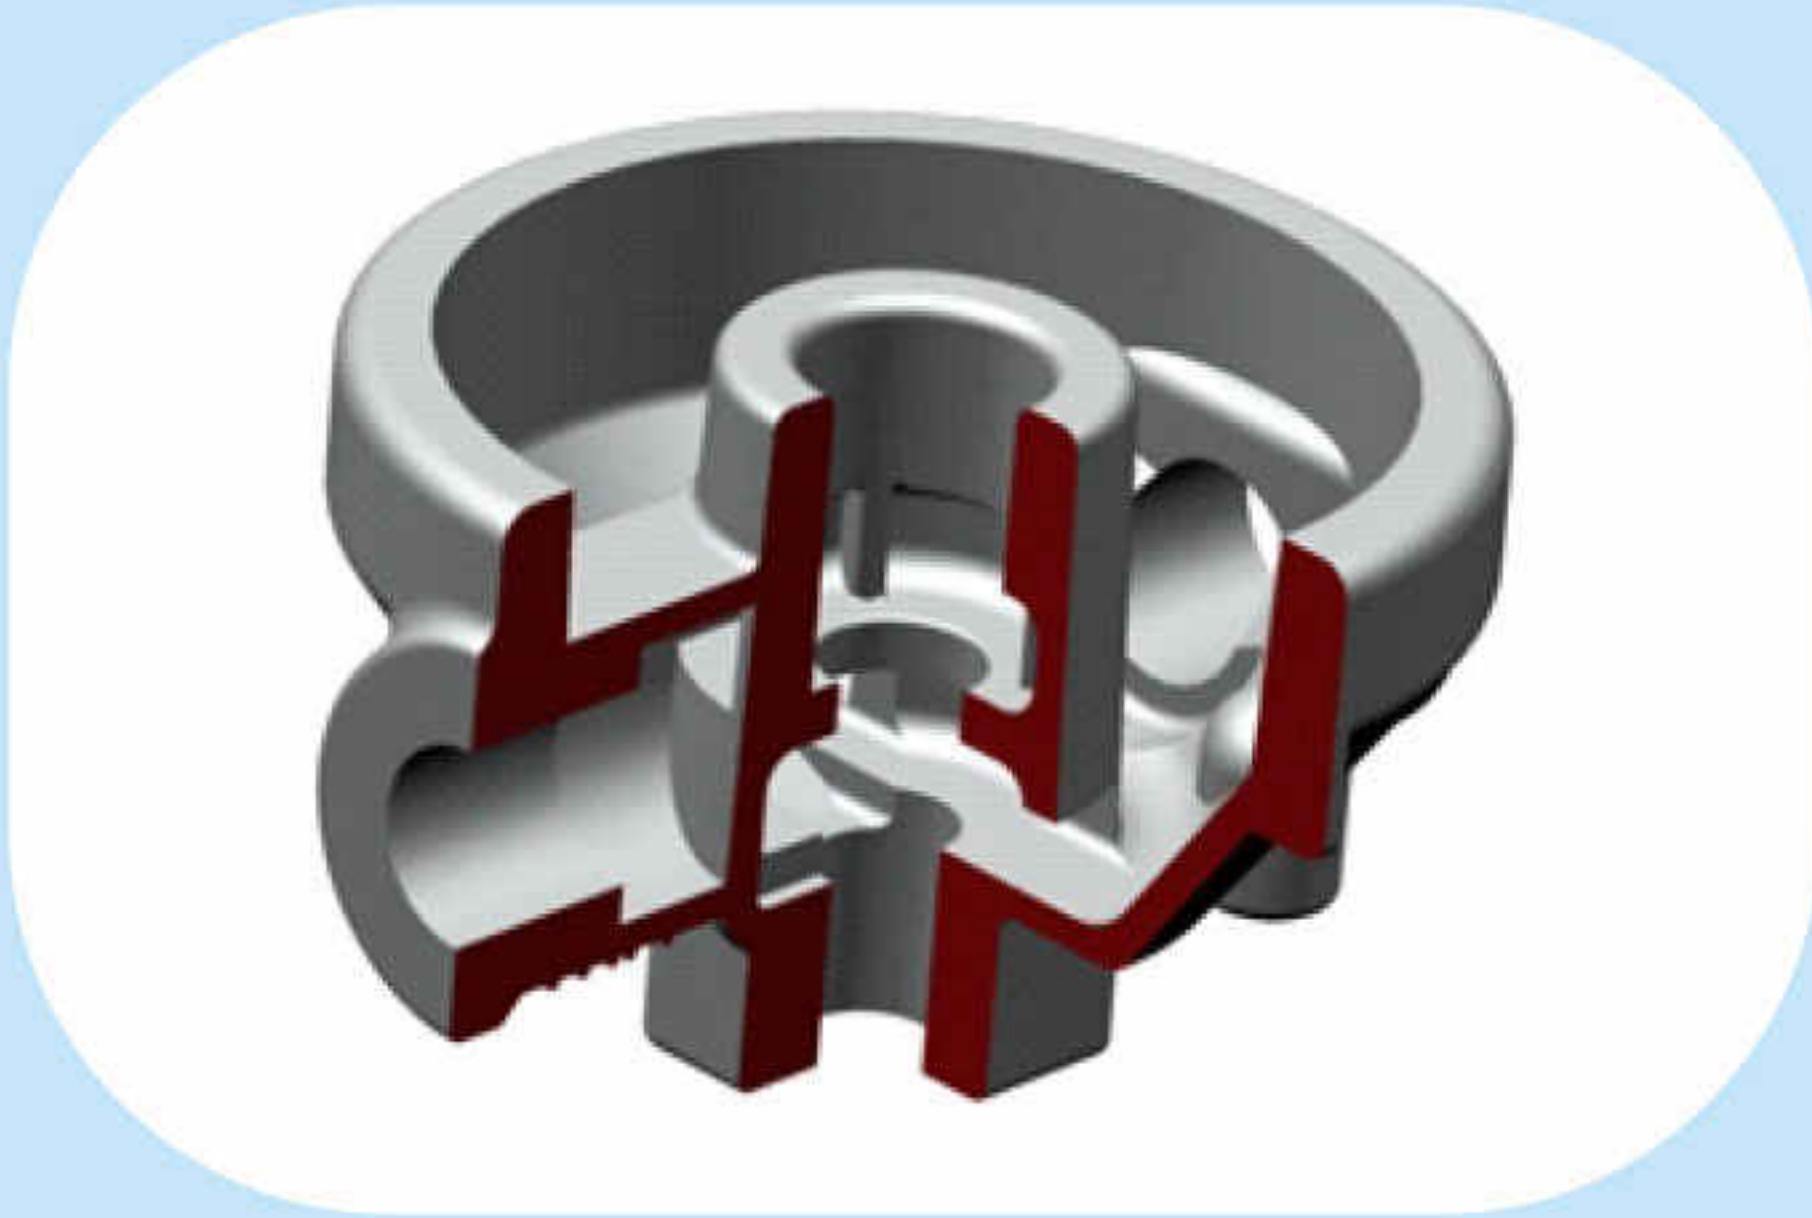

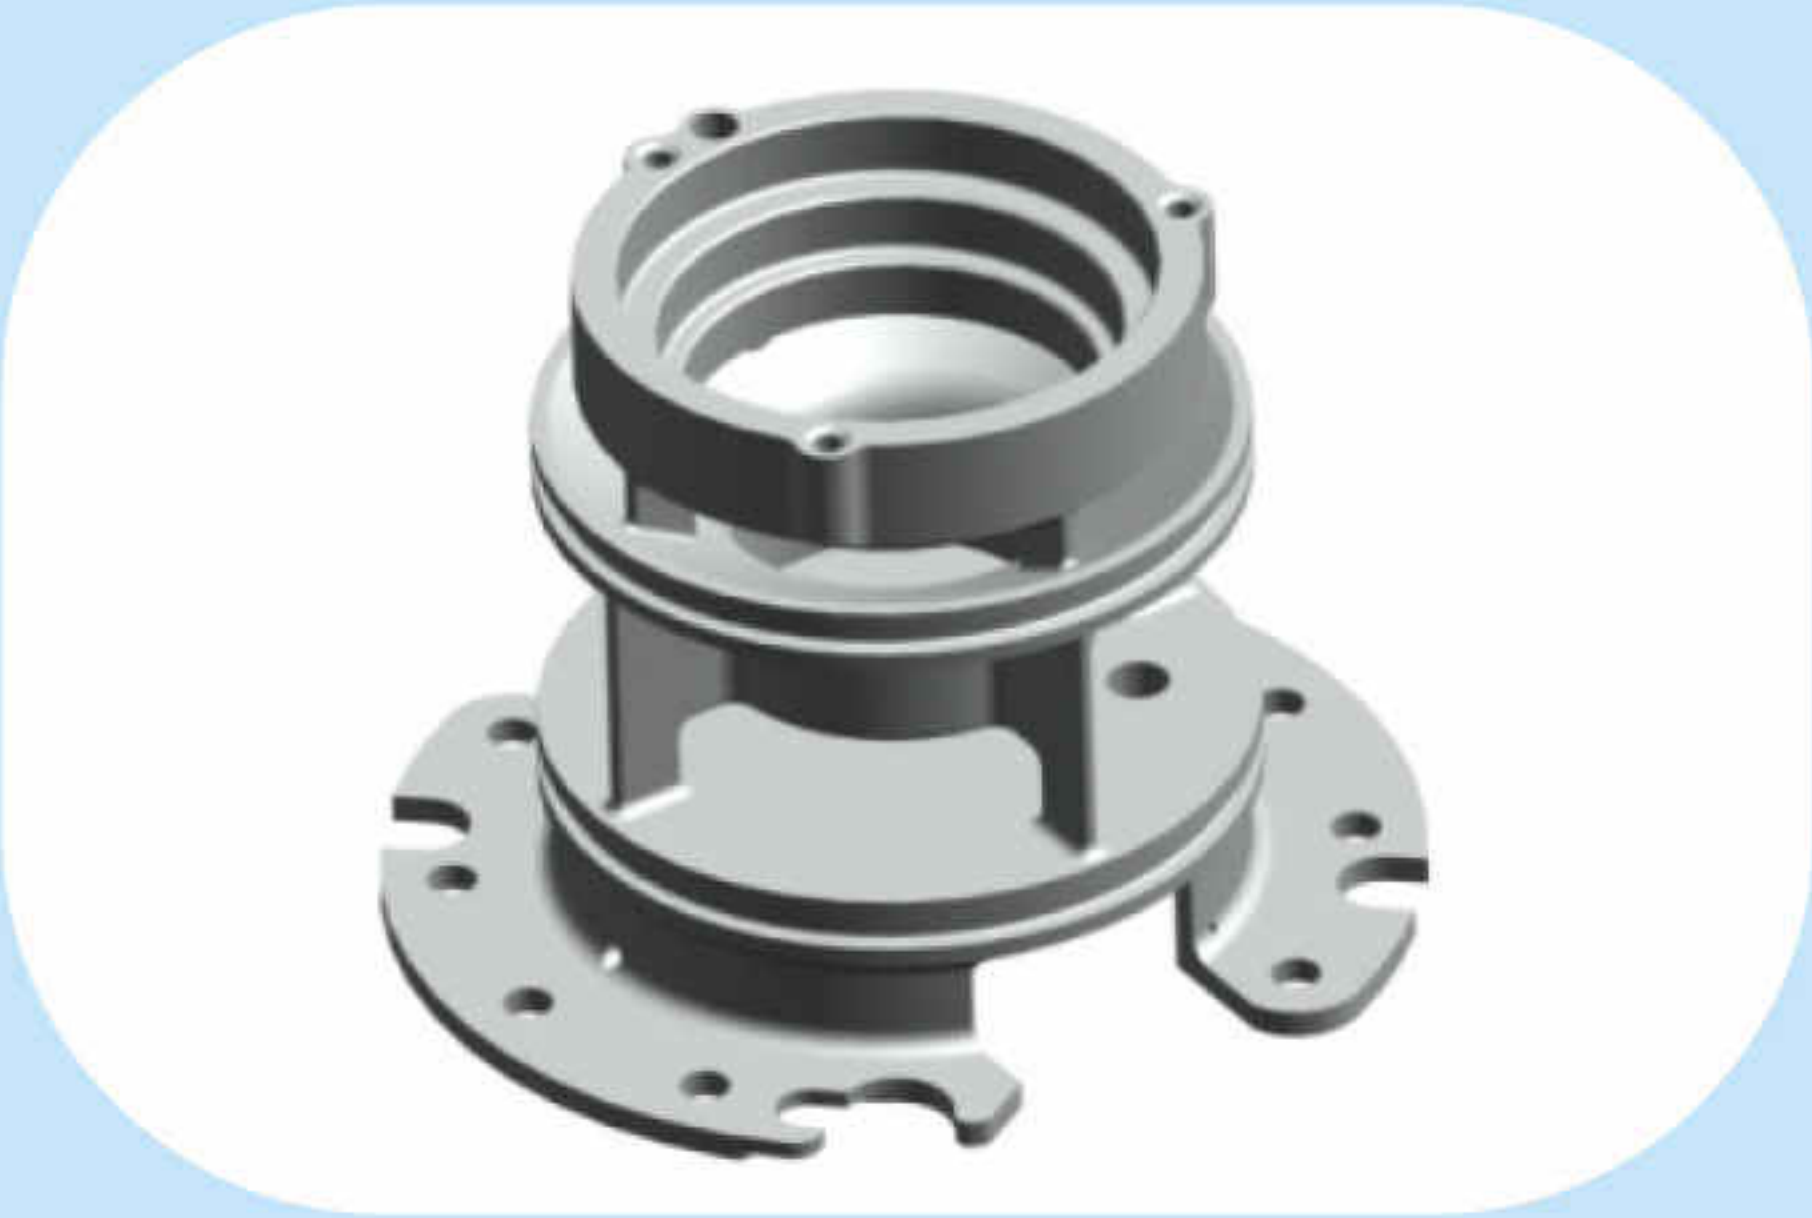

Stainless Steel	: 1.4408, 1.4581, 17-4 PH, CK3MCuN, CN7M, CK-20, CH-20, CF3M, etc.
Aluminum Alloys	: A201, A206, A356, A357, C355, F357, L51, L92, L119, L169, etc.
Cobalt Alloys	: Stellite-6, Stellite-12, etc.
Copper Alloys	: Aluminum Bronze, Tin Bronze, Phosphorus Bronze, etc.
Nickel Alloys	: CW12MW, CZ-100, M35-1, CW6MC, CU5MCuC, N12MV, Inconel, etc.
Super Alloys	: Vacuum Melt Super Alloys(Phase-II).
Titanium Alloys	: Vacuum Melt Titanium Alloys(Phase-III).

Our Valuable Customers

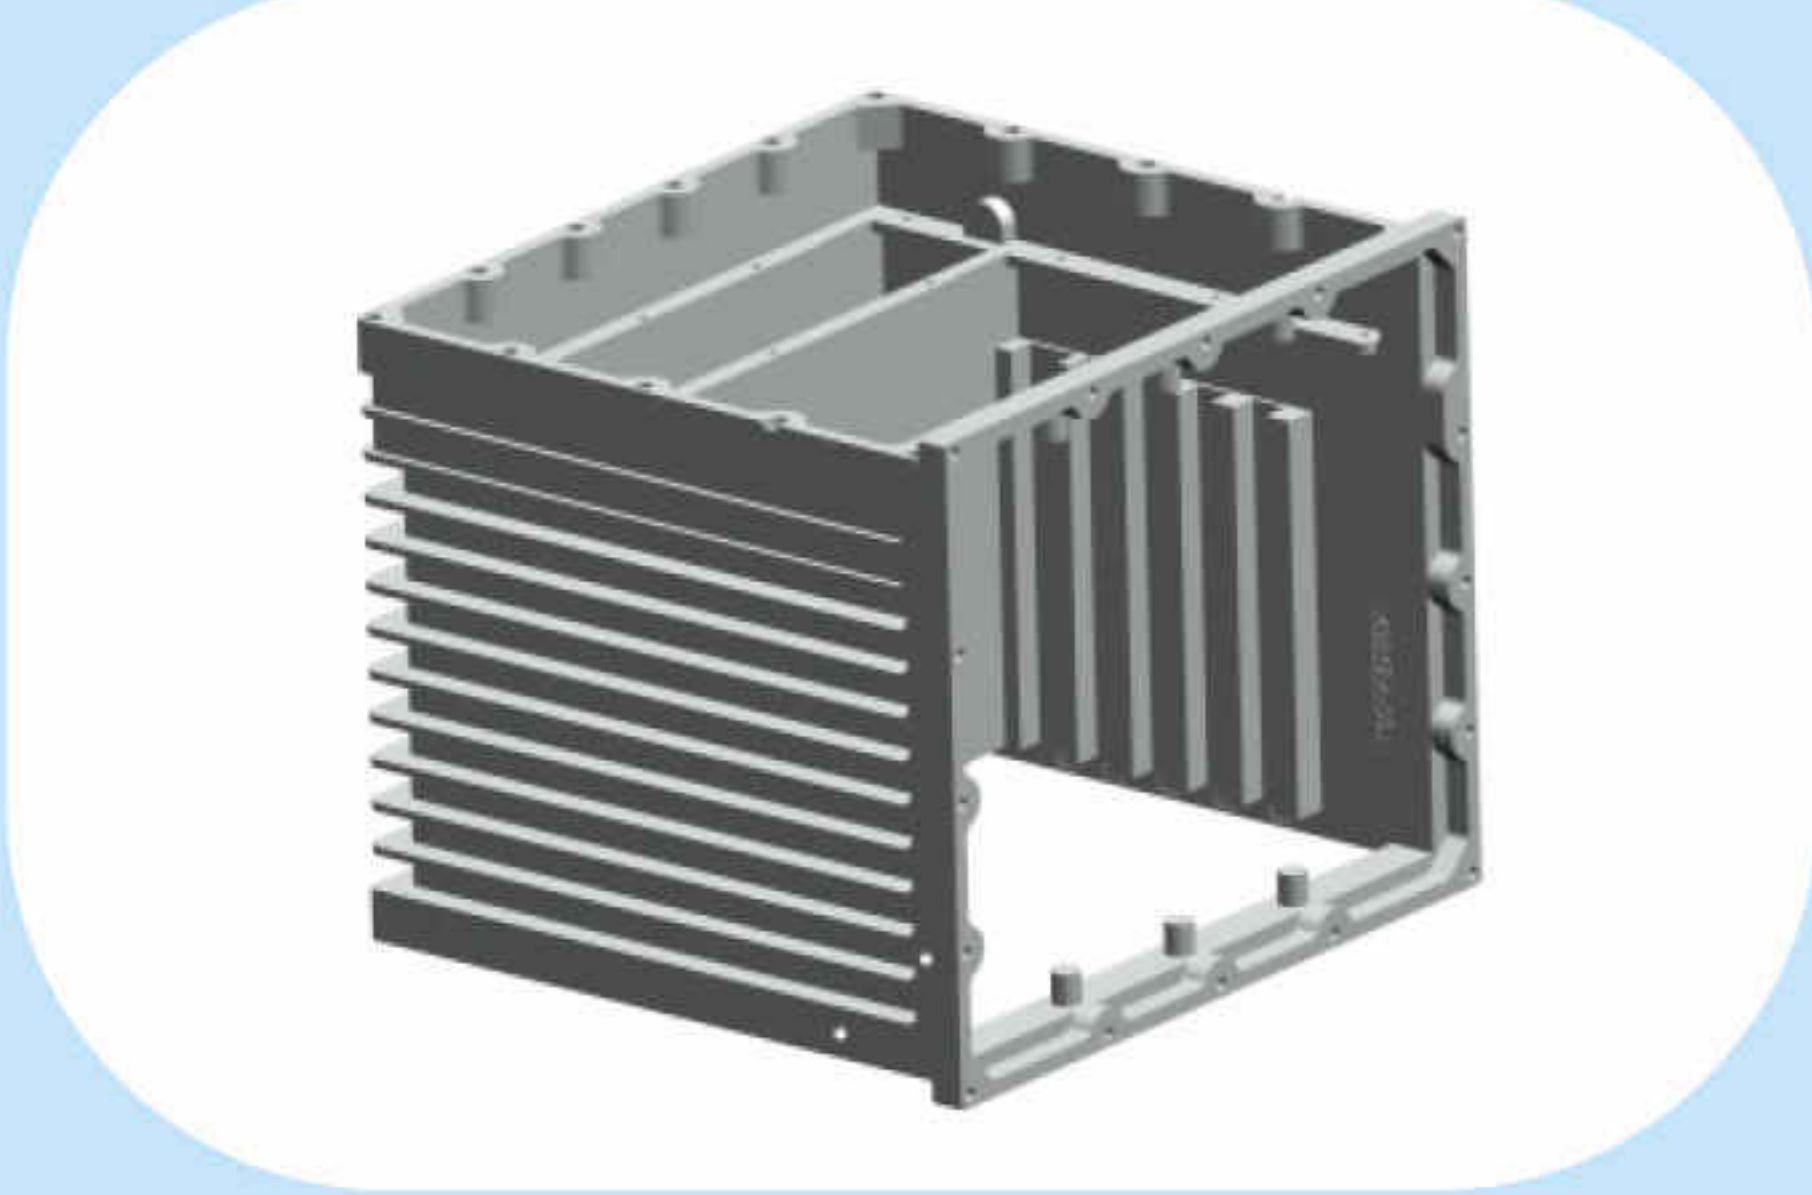

Products

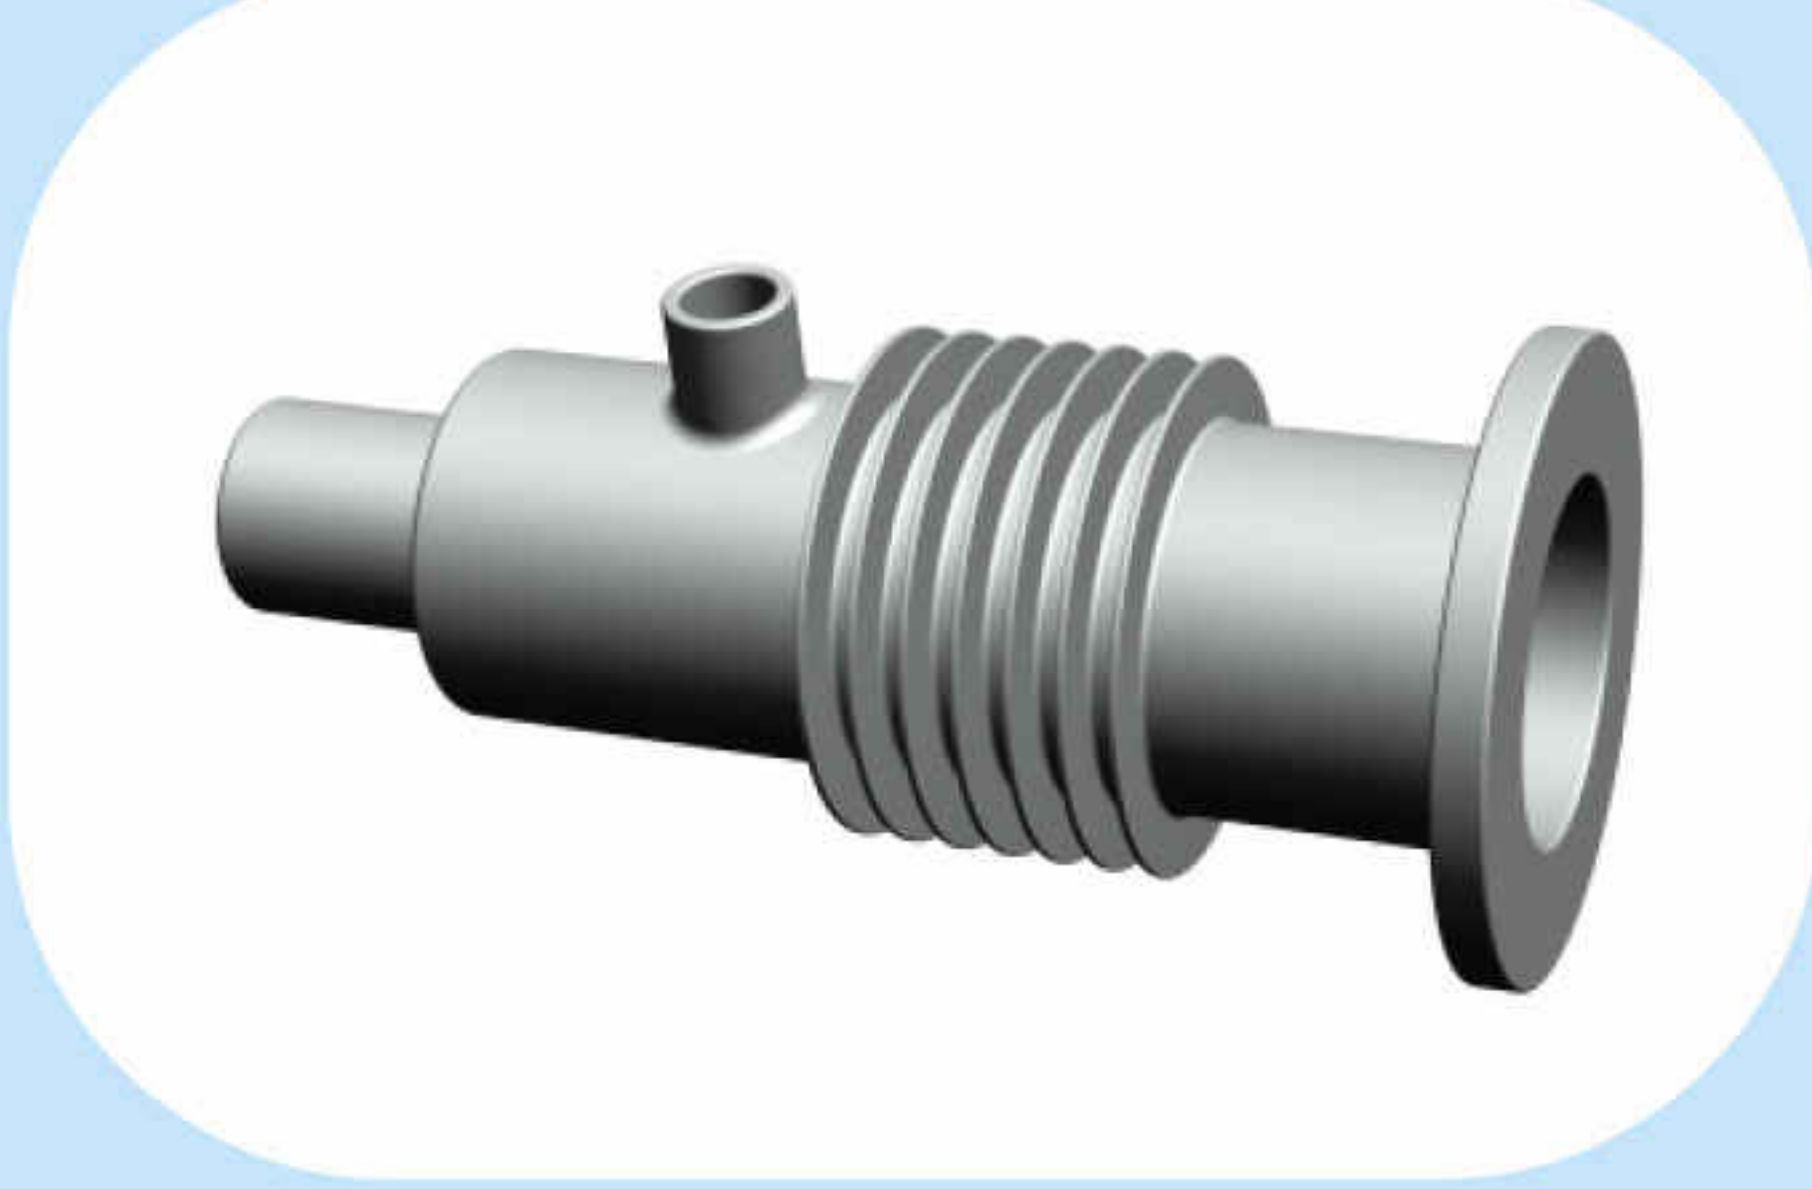

Aerospace Application

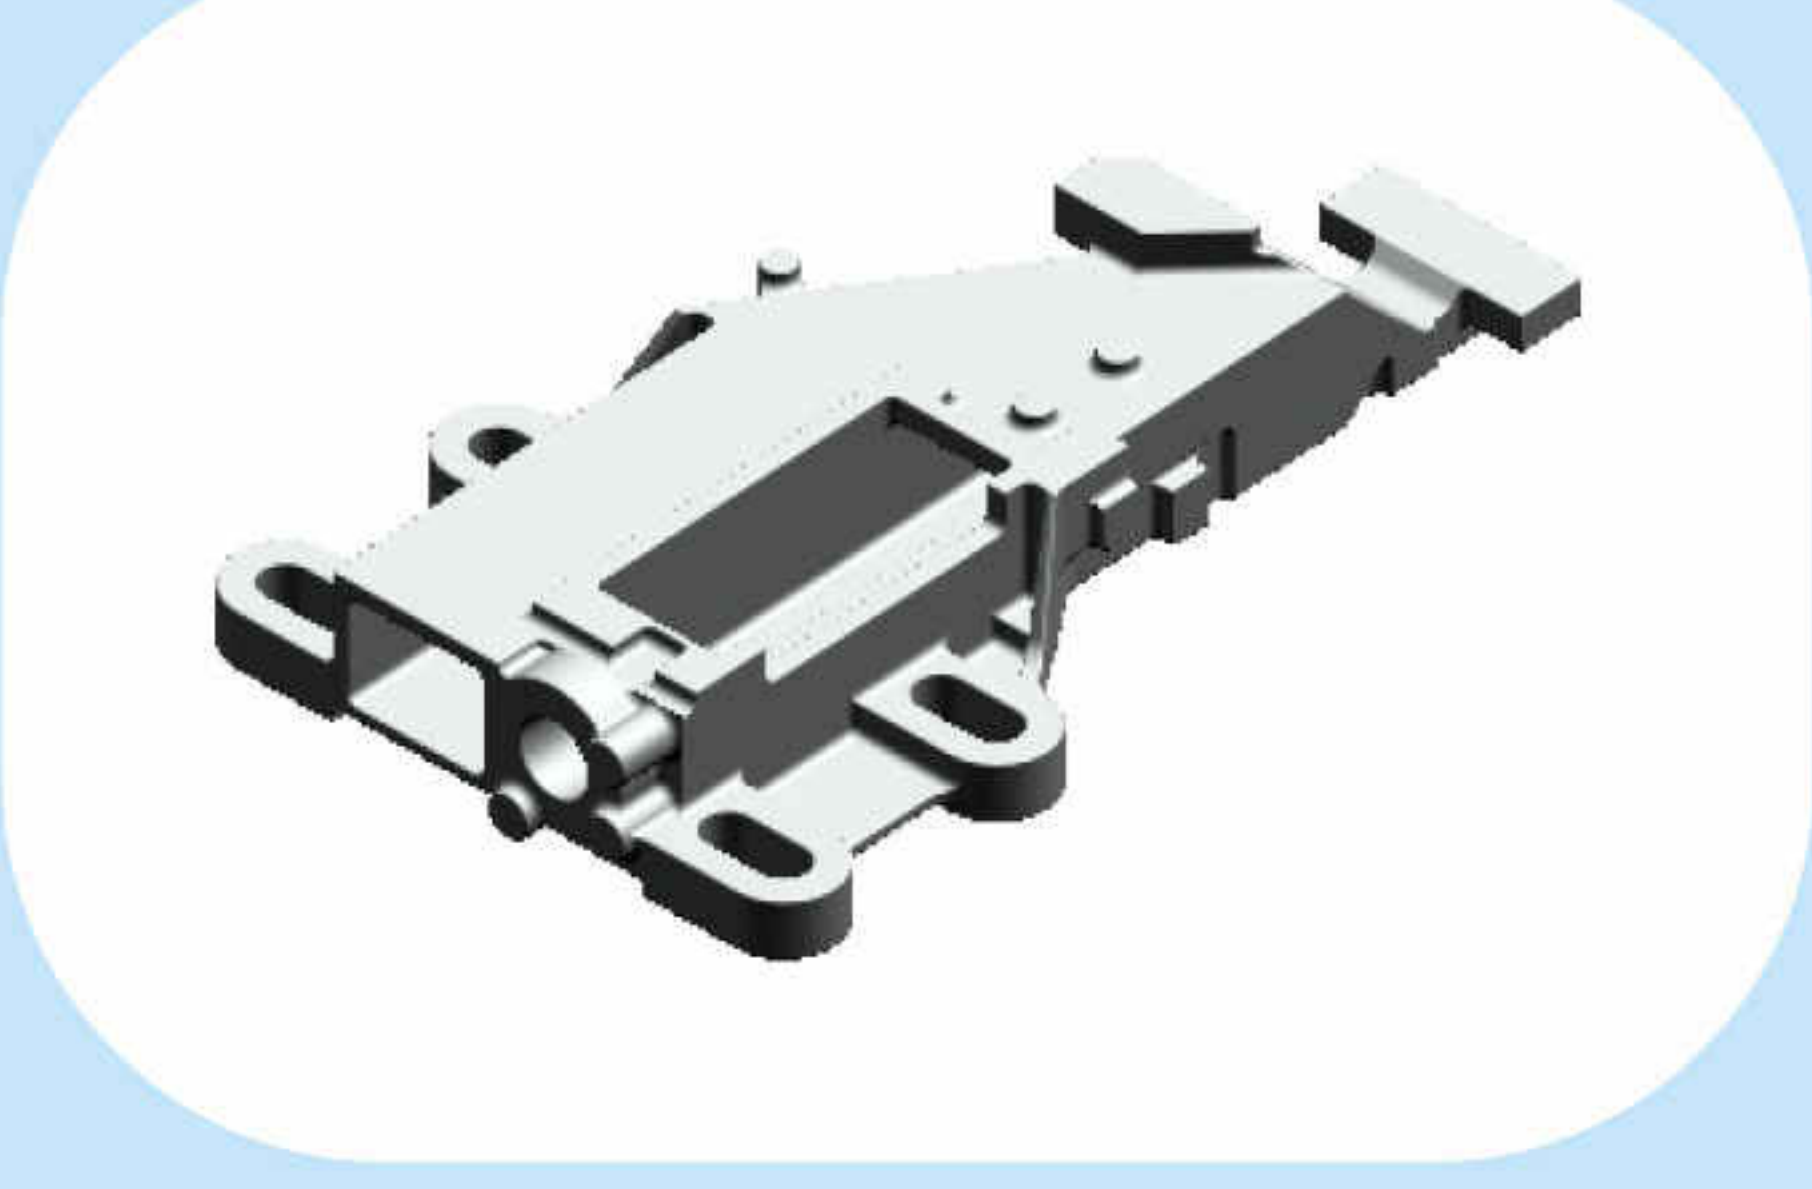

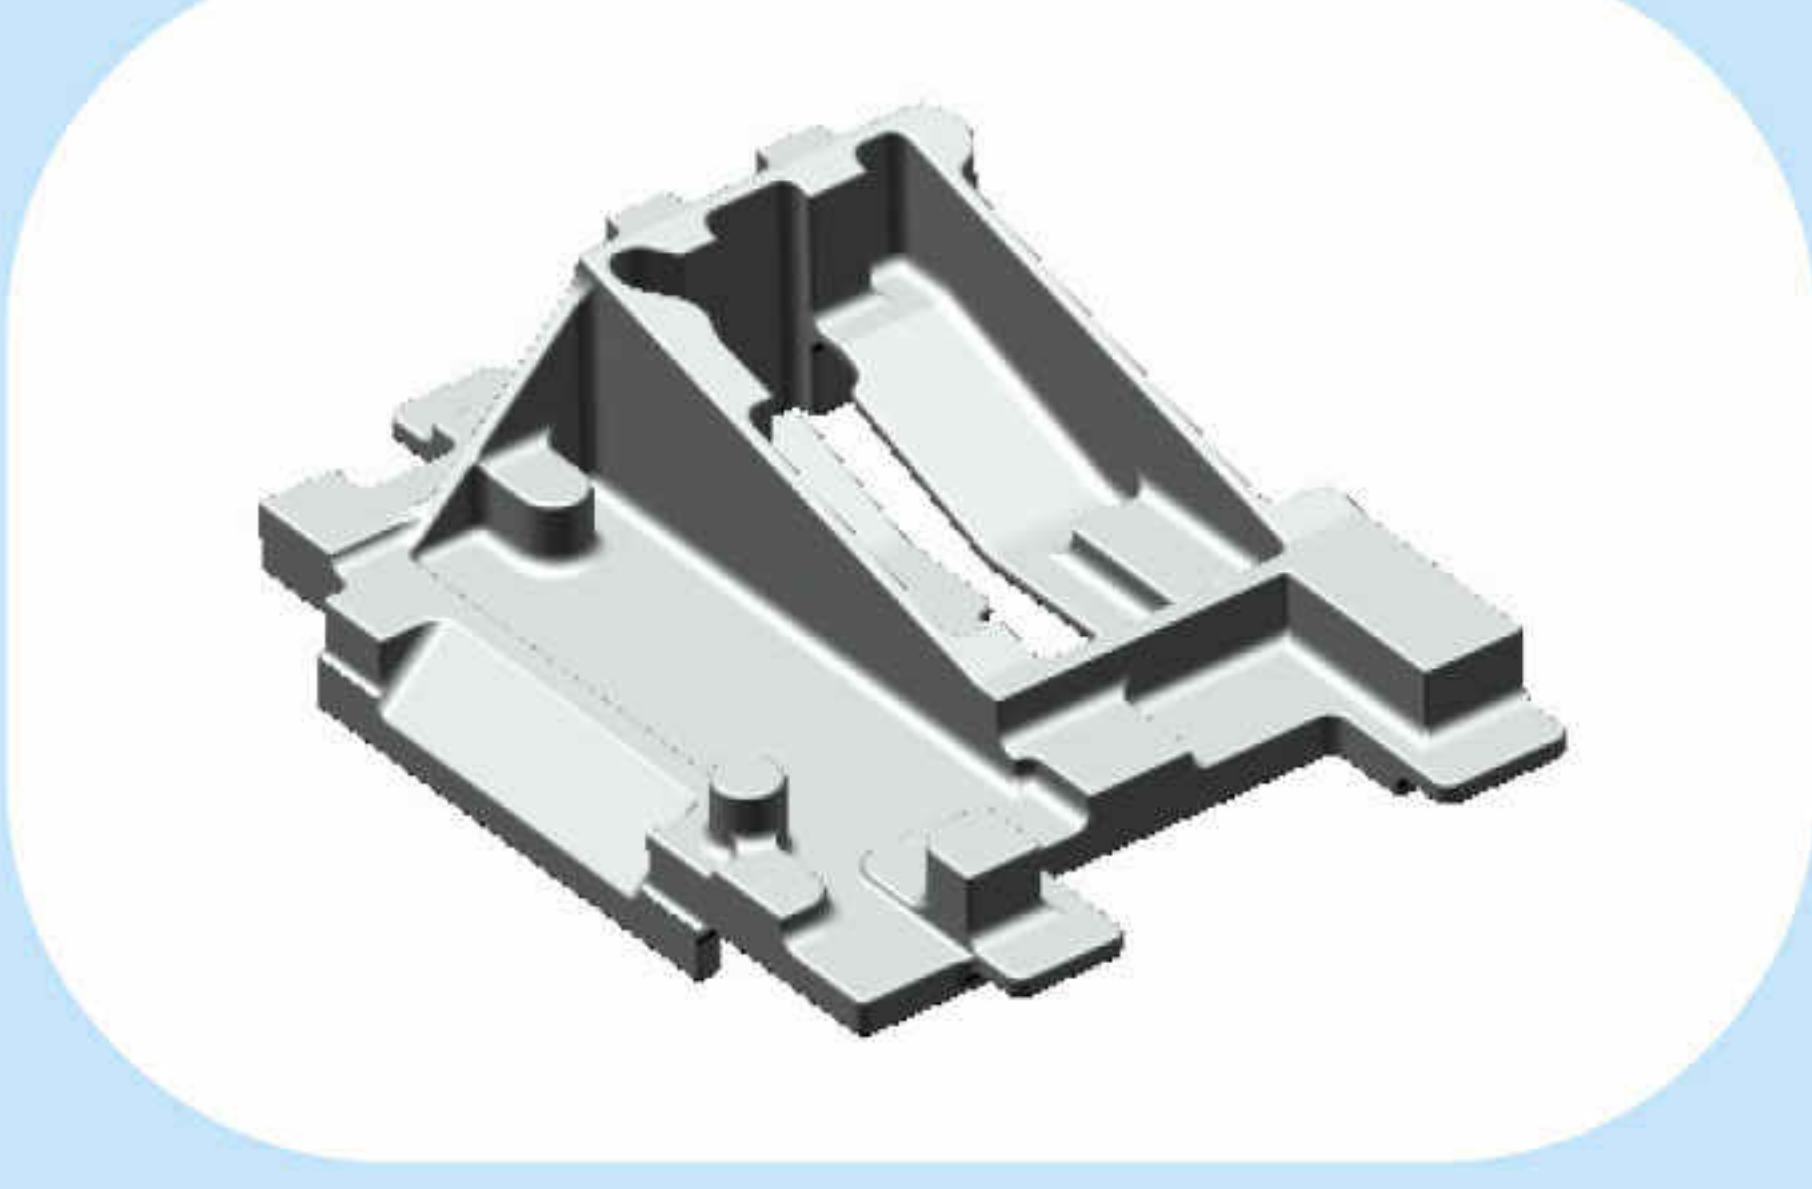

Defense Application

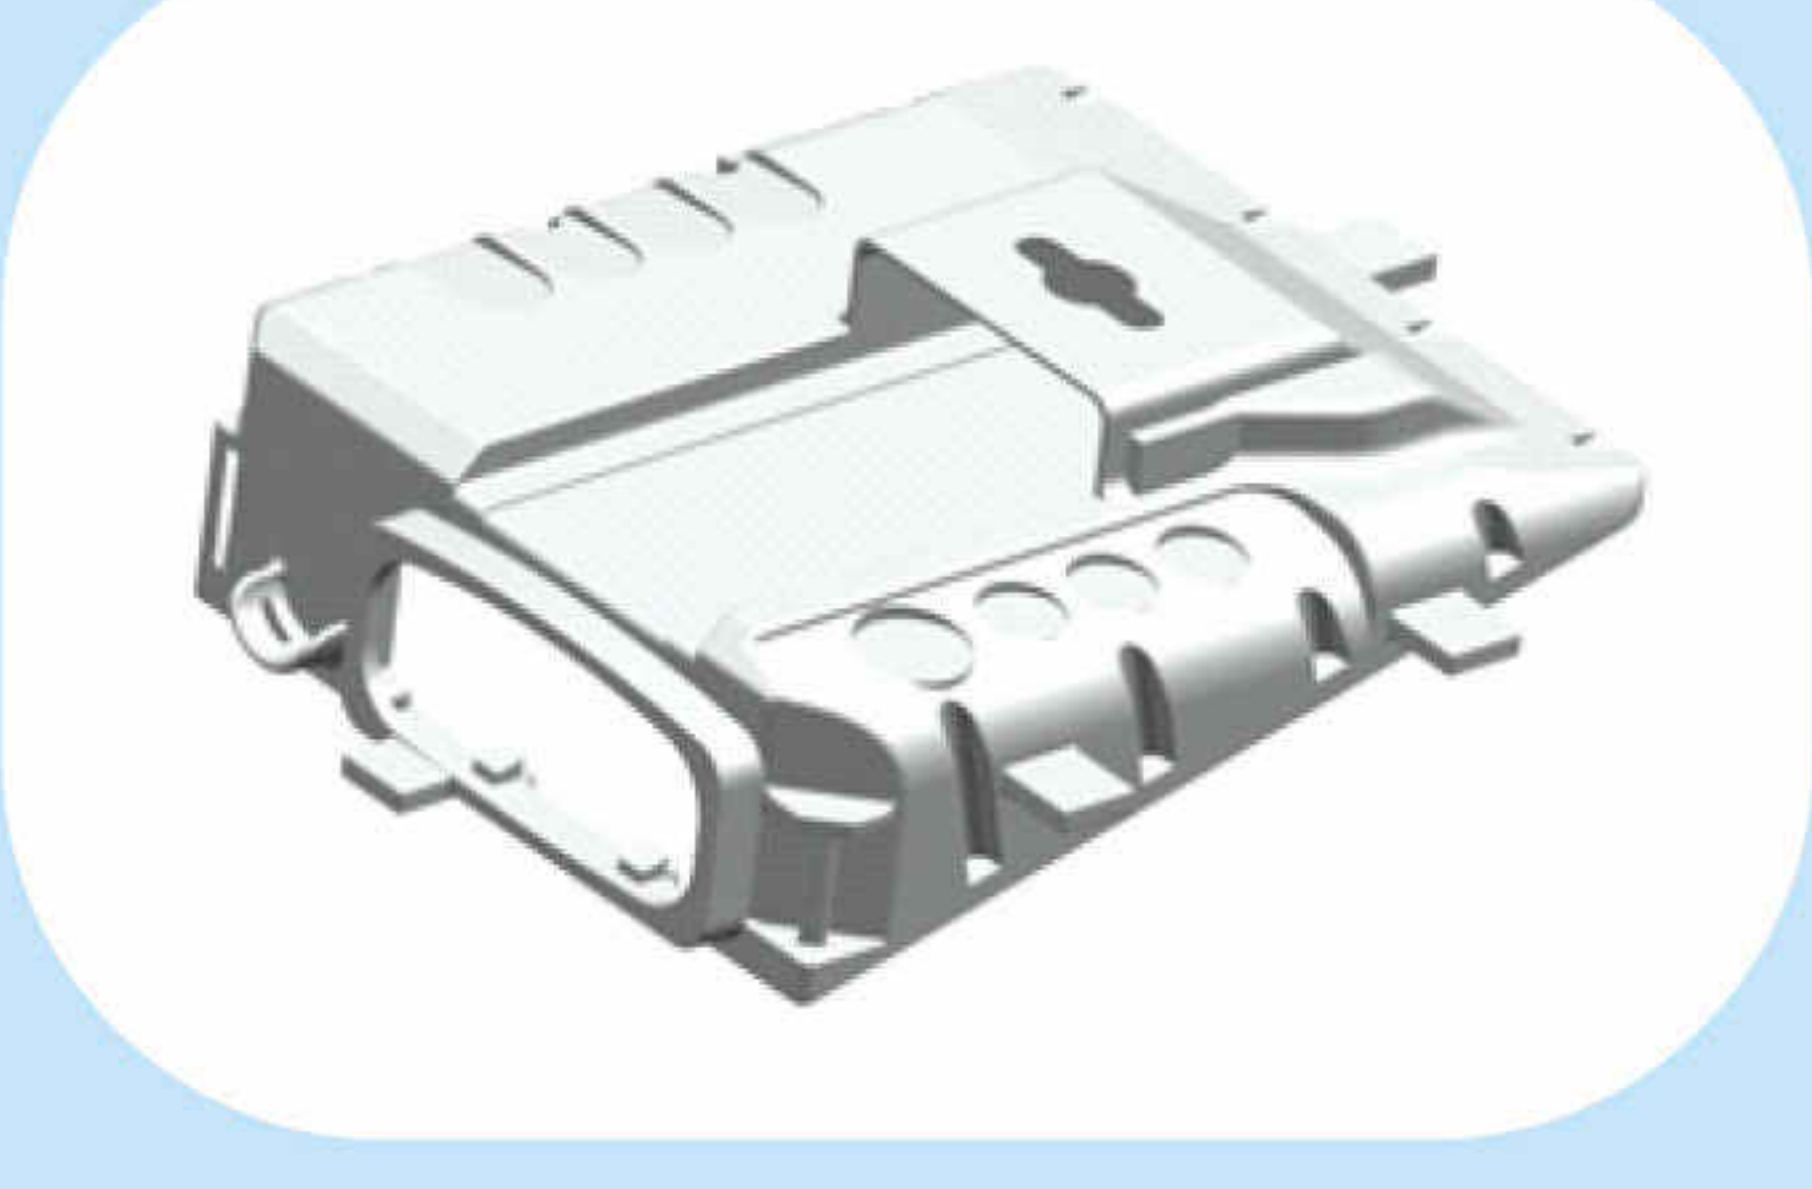

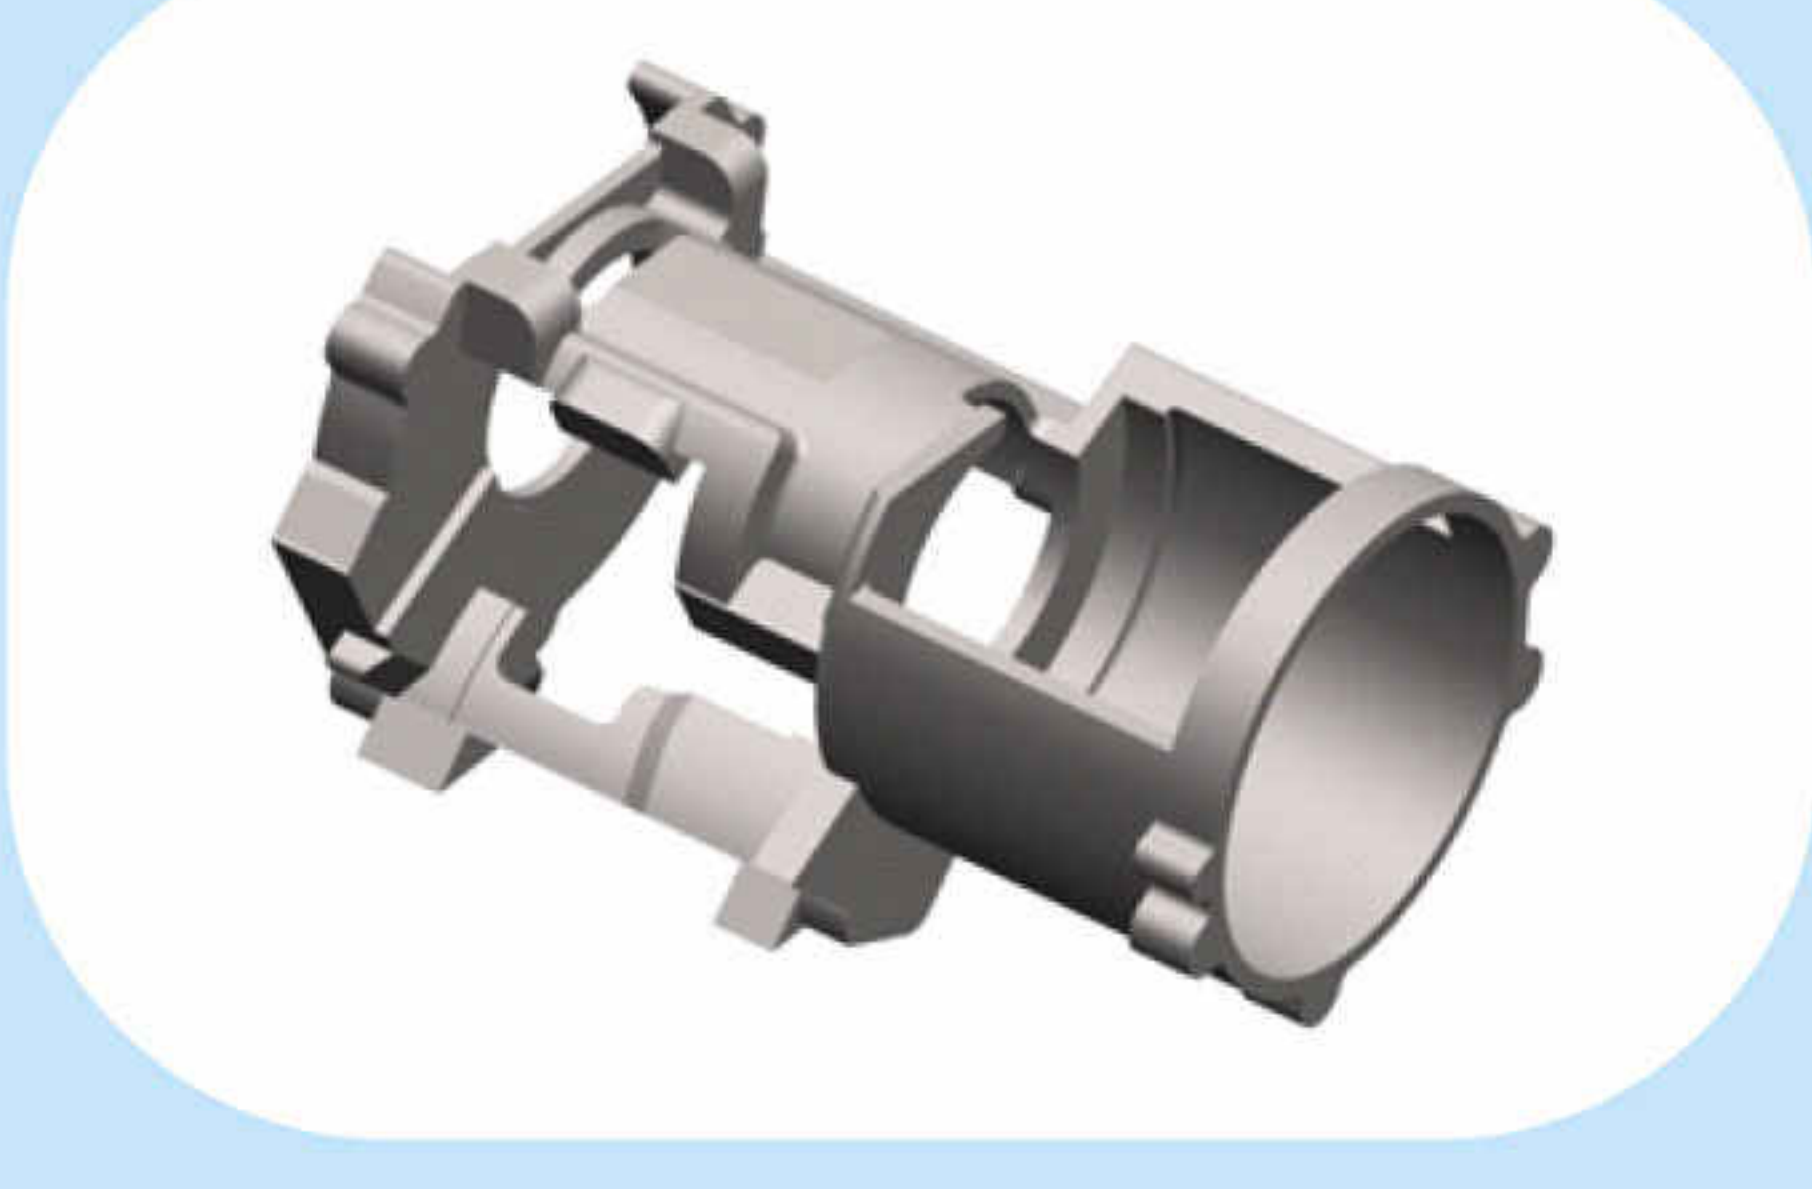

Medical Application

Electronics Application

Defense Application

Machine Gun Component

Thermal Imager Component

Turbo Charger Component

Works : Survey No. 21, Village :- Biliyala,
Rajkot-Gondal National Highway,
B/h Pan Agri Export,
Rajkot - 360 311. Gujarat, India.
